ABOUT ENERGY MUSE:

Energy Muse is the leader in wearable crystal energy, providing tools of empowerment, inspiration, and hope. The company, based in Southern California, was founded in 2000 by Native Californians Heather Askinosie and Timmi Jandro, best girlfriends for over 35 years. Seeking to educate and reconnect the world to the ancient wisdom and healing properties of crystals, each piece of jewelry combines energy and intention to create a desired outcome. Energy Muse transcends what one might think of jewelry and has instead become a lifestyle of wearable crystal energy. 🌿

The sterling silver charm is the ancient Chinese symbol of Double Happiness; considered to be one of the most powerful symbols for attracting marriage and relationship luck. LUCK

This Energy Muse piece has been created to bring luck and clarity to all endeavors. Black tourmalinated quartz is thought to be a stone of great luck and wealth. When worn, this stone helps to unlock energy blockages and create an overall balance to the body. Heishi Shells, a recognized symbol of new beginnings, has been added to keep all possibilities open.

WEARABLE SCENTS

Our IF/Wearable Scents bracelets combine the knowledge of miracle beads, color and stones with the magic of Ron Robinson's Apothia "IF" scent to create a fashionable and fragrant tool of intention.

The Miracle Bead is a natural seed that emits positive vibrations. Each bracelet contains two small gemstones to bring either the energy of Love, Happiness, Healthiness, or other things.

GRATITUDE

This Energy Muse piece is worn to align with our practice of Gratitude. Gratitude is that which shifts our attention back to love, abundance, and the divine qualities we have within us. As we express our gratitude awareness grows. Gratitude is what takes you to the next level. This Energy Muse piece, co-created by Jason Mraz is inspired by Café Gratitude, a school of transformation guised as a raw food restaurant. This piece is made with Bayong Wood, which represents the trees that stand patiently rooted into the earth, being of service to many as their green tops transform carbon dioxide into oxygen. Wood is featured in settings of 5 – the number of transformation – a reminder that we are always growing and unfolding; our life a constant transformation. The The four multicolored stones Picture Jasper, Yellow Jasper, Tigers Eye and Onyx represent the people of the world, reminding us to honor the communities thru which we wander and embrace unity within diversity. By wrapping the bracelet twice, we can see the harmony within duality, we can acknowledge the masculine and feminine energies necessary for all creatures, and we can honor those generations that came before us and those that will come after us. "I am grateful for my family." The clear yellow stone Citrine surrounding the multicolored stones represents holding the community of the world's people together, symbolizing being able to see beyond discrimination and prejudice. "We shift your attention from what's distracting you back to love and gratitude. I am grateful for everything I see, and everything I don't see." The Turquoise and Malachite together create a powerful energy combination for healing. They are considered the Master Healing Stones. "I am grateful for my health." Just as the food at Café Gratitude is prepared with love, so too is this jewelry. With this piece you are invited to enjoy being someone that chooses: loving your life, adoring yourself, accepting the world, being generous and grateful every day, and experiencing being provided for. By purchasing the Gratitude Bracelet you are supporting the International Council of 13 Indigenous Grandmothers. They are an inspiring group of 13 grandmothers from across the globe that have committed themselves to traveling the world sharing their wisdom and delivering prayers of peace and unity for all peoples.
